ABOUT ME

Software engineer with a strong backend focus in Kotlin and Java. I work on production systems where correctness, performance, and long-term maintainability matter. Comfortable owning features end to end, working closely with users, and turning complex business problems into simple, reliable solutions.

WORK EXPERIENCE

LEAD SOFTWARE ENGINEER – COFANO SOFTWARE SOLUTIONS – 01/10/2023 – Current – DORDRECHT, NETHERLANDS

- Led development of an asset-management platform for containers and wagons
- Shaped the system architecture across Kotlin/Spring microservices and a React frontend
- Translated operational and financial workflows into clear technical requirements with customers
- Owned key technical decisions, keeping APIs and data models consistent across services
- Ensured reliable delivery to production through pairing, code reviews, and CI improvements
- Improved performance, resiliency, and developer experience by streamlining releases, improving observability, and reducing defects

SOFTWARE ENGINEER – COFANO SOFTWARE SOLUTIONS – 01/07/2023 – 01/10/2023 – DORDRECHT, NETHERLANDS

- Delivered features for the Barge Operating System from concept to production
- Worked across Java/Spring APIs, database changes, React UI, and automated tests
- Collaborated closely with product and users to reduce scope and ship useful, usable increments

SOFTWARE DEVELOPMENT INTERN – NOS (NEDERLANDSE OMROEP STICHTING) – 01/02/2023 – 01/06/2023 – HILVERSUM, NETHERLANDS

- Built a text-analysis prototype to cluster and classify news messages
- Developed a labeling tool using Python and Django
- Enabled downstream workflows to identify sources and group related items for editors

PARTTIME SOFTWARE DEVELOPER – COFANO SOFTWARE SOLUTIONS – 21/12/2021 – 01/02/2023 – DORDRECHT, NETHERLANDS

- Delivered full-stack features for a port community system
- Worked across frontend, backend services, and relational databases
- Left the codebase in better shape by improving interfaces and test coverage

SOFTWARE DEVELOPMENT INTERN – COFANO SOFTWARE SOLUTIONS – 01/09/2021 – 20/12/2021 – DORDRECHT, NETHERLANDS

- Built a monitoring microservice to trace inbound and outbound messages
- Linked related messages to speed up incident debugging
- Shipped both a React frontend and a Java/Spring backend

PEERCOACH – HOGESCHOOL ROTTERDAM – 01/08/2020 – 01/06/2021 – ROTTERDAM, NETHERLANDS

- Supported first-year students with programming assignments
- Helped students plan their studies and manage coursework
- Focused on practical explanations and unblock-first mentoring

EDUCATION AND TRAINING

01/09/2019 – 01/07/2023 Rotterdam, Netherlands

BACHELOR OF SCIENCE Hogeschool Rotterdam

- Learned how to analyse and develop software
- Did multiple software development projects
- Did 2 minors in:
 - Software Engineering (INFSWE01)
 - Devops (CMISDP01)

Website www.hogeschoolrotterdam.nl | **Field of study** Software and applications development and analysis |

Final grade Cum Laude | **Level in EQF** EQF level 6 | **National classification** 6 | **Type of credits** ECT | **Number of credits** 240

LANGUAGE SKILLS

Mother tongue(s): **DUTCH**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2
FRENCH	A1	A2	A1	A1	A2
AZERBAIJANI	A2	B1	A2	A2	B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Languages & Frameworks

Kotlin | Java | Spring | React Native | React | JavaScript | Next.js | Python | Django

Databases

MySQL | PostgreSQL | SQL

DevOps & Tools

Docker | Gradle | Git | Linux | Scrum

Concepts

Microservices | Web Development | Object-Oriented Programming
